FLOWER scavenger hunt

BEST SEASONS: Spring  |  BEST TRAILS: Upland, Wildflower, Discovery

Can you find these flowers as you hike? Place a checkmark next to each flower that you see and answer the questions. Remember, please stay on the trails and follow all trail rules. Flower picking is only allowed within the Schott Nature PlayScape.

INTRODUCED PLANTS

LESSER CELANDINE (BUTTERCUP FAMILY)

This flower is one of the first to bloom in the early spring. What advantage might this create?

☐ = 1 point

☐ = 2 points

OX-EYED DAISY (COMPOSITE FAMILY)

These daisies have quite a few petals on each flower. Get up close to one of these flowers and count how many petals it has.

☐ = 2 points

☐ = 1 point each

DAFFODIL (AMARYLLIS FAMILY)

Daffodils were beloved by the Krippendorf family, one of the former owners of the Rowe Woods property. Where on the property do you notice the most of these flowers?

☐ = 1 point

☐ = 2 points

Find a flower that is not on this scavenger hunt and describe/draw it below. Can you find out what species it is by using a guidebook at the front desk in the Rowe Visitor Center?

☐ = 10 points

While hiking, did you notice more native or more introduced plants? Circle your answer below.

NATIVE or INTRODUCED

☐ = 2 points

How might early-blooming introduced plants affect the growth of native plants?

☐ = 5 points
